EDUCATION

University of Ottawa

Sep 2022 – Dec 2026

Bachelor of Science in Computer Science

Ottawa, ON

Relevant Courses: Data Communications & Networking, Operating Systems, Data Structures, Databases, UI/UX Design

Awards: Scholarship for Women in CS, UOSU Outstanding Time Commitment Scholarship, Ted Rogers Scholarship

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, Java, SQL, R, C, HTML/CSS, MATLAB, JSON

Frameworks/Technologies: React, Next.js, Node.js, Flask, REST APIs, TensorFlow, PyTorch, Agile/Scrum, Docker

Tools: Power BI, Excel, Tableau, Salesforce, JIRA, AWS, GCP, MongoDB, PostgreSQL, Figma, Power Automate

EXPERIENCE

Global Customer Care Business Intelligence Intern

Jan 2026 – Aug 2026

Ciena

Ottawa, ON

- Document and maintain business-critical performance reports supporting Global Customer Care operations
- Develop *Power BI* dashboards while validating key operational metrics across *Excel*, *Power BI*, and *Salesforce*
- Build *Power Automate* workflows to streamline reporting and manage requests for report creation and refinement

RPA Intern

Jan 2025 – Apr 2025

Scotiabank

Ottawa, ON

- Monitored 55+ robotic process automation (RPA) workflows using *Blue Prism* to ensure reliability and performance
- Created documentation outlining process automation logic, enabling smoother knowledge transfer and onboarding

Machine Vision Technical Writer Intern

Sep 2024 – Dec 2024

Zebra Technologies

Remote

- Developed and refined 100+ pages of technical documentation using *Oxygen XML Editor*, applying C expertise
- Worked closely with developers to update user guides and function references for the Aurora Imaging Library

PROJECTS

Honours Project: Robotic Manipulation of Granular Materials | Python, RLPD, RL

Dec 2025

- Collaborated with the University of Toronto to implement and train the RLPD method for robotic manipulation
- Built a SAC training and evaluation framework using Gymnasium and PyTorch, performed hyperparameter comparisons, and analyzed task variance across AntMaze, Hopper-v4, and Walker2d-v4

UI/UX Design Case Studies | React, JavaScript, CSS, Figma, Vercel

Jul 2025

- Developed four interactive websites with a focus on user flow, accessibility, and responsive, user-centered design
- Deployed the project via Vercel, integrating bilingual and theme-adaptive features to enhance user experience

Hotel Management System | Java, HTML, CSS, SQL

Apr 2024

- Created an e-hotel web application with a database that performs administrative actions based on the user role
- Developed the relational database schema, ER diagram, and assisted with the frontend design and database testing

Healthcare Appointment Management System | Java, Android Studio

Dec 2023

- Created an Android application to streamline healthcare appointment scheduling and provide role-based access

PROFESSIONAL CERTIFICATIONS

Cybersecurity Fundamentals - Palo Alto Networks, Networking Basics - Cisco, Red Hat Enterprise Linux Technical Overview - Red Hat, Aruba SD-Wan Basics - Hewlett Packard Enterprise, Fortinet Certified Administrator - Fortinet

ACTIVITIES

Marketing/Design & Sponsorship Coordinator

Jul 2023 – Jan 2025

uOttHack - University of Ottawa

Ottawa, ON

- Supported hackathon operations through marketing, design, and sponsor outreach for successful event execution

VP Philanthropy

Mar 2023 – Apr 2026

Computer Science Student Association - University of Ottawa

Ottawa, ON

- Planned and hosted events with faculty organizations, raising hundreds of dollars for a variety of causes
