EDUCATION

University of Ottawa

Sep 2022 – Apr 2026

Bachelor of Science in Computer Science

Ottawa, ON

Relevant Coursework: Data Communications and Networking, Data Structures and Algorithms, Operating Systems, Probability and Statistics, Intro. to Programming II (Java), Analysis and Design of User Interfaces, Databases I

Scholarships/Awards: First Generation Bursary, UOSU Outstanding Time Commitment for a Registered Student Government Scholarship, Scholarship for Women in Computer Science/Software Engineering, Ted Rogers Scholarship

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, Java, SQL, R, C, HTML/CSS, JSON, MATLAB

Frameworks/Technologies: React, Node.js, Next.js, REST APIs, Flask, TensorFlow, PyTorch, Agile/Scrum, Docker

Tools: Excel, Power BI, Tableau, Salesforce, JIRA, AWS, Google Cloud Platform, MongoDB, PostgreSQL, Figma

EXPERIENCE

RPA Intern

Jan 2025 – Apr 2025

Scotiabank

Ottawa, ON

- Monitored 55+ robotic process automation (RPA) workflows using *Blue Prism* to ensure reliability and performance
- Partnered with business teams to identify repetitive, rule-based tasks suitable for automation, enhancing efficiency
- Created documentation outlining process automation logic, enabling smoother knowledge transfer and onboarding

Machine Vision Technical Writer Intern

Sep 2024 – Dec 2024

Zebra Technologies

Remote

- Developed and refined 100+ pages of technical documentation in *Oxygen XML Editor*, applying C expertise
- Worked closely with developers to update user guides and function references for the Aurora Imaging Library

PROJECTS

Honours Project: Robotic Manipulation of Granular Materials | *Python, RLPD, RL*

Sep 2025 – Present

- Collaborating with the University of Toronto to implement and train the RLPD method for robotic manipulation
- Developed reward function and fine-tuning pipeline; trained and evaluated policies in a pre-built environment

UI/UX Design Case Studies | *React, JavaScript, CSS, Figma, Vercel*

Jul 2025

- Developed four interactive mock websites — a service platform, game site, e-commerce store, and analytics dashboard — emphasizing user flow, accessibility, and responsive design
- Applied UI/UX principles and usability testing to improve layout and engagement across diverse user scenarios
- Deployed the project via Vercel, integrating bilingual and theme-adaptive features to enhance user experience

Hotel Management System | *Java, HTML, CSS, SQL*

Apr 2024

- Created an e-hotel web application with a database that performs administrative actions based on the user role
- Developed the relational database schema, ER diagram, and assisted with the frontend design and database testing

Healthcare Appointment Management System | *Java, Android Studio*

Dec 2023

- Created an Android application using Java and Android Studio to streamline the process of healthcare appointment scheduling and management via different roles which gain access to their associative information
- Utilized the layout editor to create a UI for the application to allow different roles to interact with each other

PROFESSIONAL CERTIFICATIONS

Cybersecurity Fundamentals - Palo Alto Networks, Networking Basics - Cisco, Red Hat Enterprise Linux Technical Overview - Red Hat, Aruba SD-Wan Basics - Hewlett Packard Enterprise, Fortinet Certified Administrator - Fortinet

ACTIVITIES

Sponsorship Coordinator

Apr 2024 – Jan 2025

uOttHack - University of Ottawa

Ottawa, ON

- Cultivate relationships with a wide network of over 30 sponsors, facilitating coordination for successful execution

VP Philanthropy

Mar 2023 – Present

Computer Science Student Association - University of Ottawa

Ottawa, ON

- Plan and host events, working with other faculty organizations, to raise hundreds of dollars for a variety of causes
